

We believe the growth of free enterprise is directly related to the freedom of its citizens. Freedom is preserved in our democracy when we hold free and fair elections that protect the fundamental rights of all Texans.

We believe that Texas elections should be convenient, transparent, and secure.

We believe the right to vote is sacred. When more people participate in our democratic process, we will all prosper.

We stand together, as a nonpartisan coalition, calling on all elected leaders in Texas to support reforms that make democracy more accessible and oppose any changes that would restrict eligible voters' access to the ballot.

We urge business and civic leaders to join us as we call upon lawmakers to uphold our ever elusive core democratic principle: equality.

By supporting a stronger trustworthy democracy, we will elevate our economy.
